

Felt to Quilt

Barbara Weeks November 16th

After Barbara's brilliant talk and demonstration this year, we just had to invite her back for a workshop.

Fine merino wool and silk gauze are exciting and luxurious materials to work with. Using minimal equipment and basic skills, Barbara will teach how to create a sumptuous cloth which can be used for embroidery and quilting.

During the workshop colour and texture are explored, with an element of spontaneity. We will learn to lay the finest layers of wool fibre in the technique of wool lamination, where wool is used to manipulate fine silks, to produce a unique cloth that is a delight to stitch.
