

Designing for embroidery

Jill Kipnis January 26th

Take your embroidery to the next level at this enjoyable and accessible day. Jill, of Inspirational Embroidery, will show you how to turn your inspiration into a design for embroidery by following key steps, including stitch sampling.

Ideally, email Jill with your chosen image and technique so she can prepare materials to help you. Then, at the workday, she will guide you through the process to develop your unique design for a small project.

Also, there will be an opportunity to 'deconstruct' a design which can help take your work to a completely different level.

Find out more about Jill's work at <https://www.inspirationalembroidery.co.uk/>.
