

Little Books

Terina Foster-Friend July 8th

Building on her 2018 talk and demo, Terina returns with a workday to help turn those blank coloured pages into a mini- book of memories.

Using watercolour pencils you will colour lining paper to make pages (bring any papers coloured at the demo afternoon). Then, while the paper dries, plan the pages to tell your 'story'. What will yours be? Terina will be working on a seaside theme, but you could choose a special holiday, a country walk or your garden, for example.

You will make covers, assemble your book and decorate at least one of the pages using hand stitch, print, embellishments, small objects and other ephemera that you have collected in advance. So start your themed collection and be ready to join us in July.
